These projects has received funding from the European Union's Horizon 2020 research and innovation programme

"***Picking the lowhanging fruit***" is a business metaphor used to communicate the most easily achieved of a set of tasks, measures, goals, etc. The concept is also known as "***quick win***"

These projects has received funding from the European Union's Horizon 2020 research and innovation programme

BENEFITS vs. CHALLENGES

These projects has received funding from the European Union's Horizon 2020 research and innovation programme

A Quick(?) Win

We are maturing - but we are not there yet

These projects has received funding from the European Union's Horizon 2020 research and innovation programme

Your Call To Action!

These projects has received funding from the European Union's Horizon 2020 research and innovation programme

Imagine a future where
No piece of data, no image
Captured from and for cancer patients
Is left to stay in silos - but gets
Shared privately and anonymously
Impacting their health outcomes, with the
Vision to impact not only them, but
Every cancer patient after them.
